text: |

Welcome to the **Performant and Available Computing Systems (PACS) Lab**

at York University. In the PACS lab, we analyze, model, design, and build

large-scale computing systems focused on performance and availability.

The PACS lab is part of the Electrical Engineering and Computer Science

Department within the Lassonde School of Engineering at York University,

located in the vibrant, multicultural city of Toronto.

We are excited to welcome new members to the PACS lab. To join, please visit our [Prospective Page](./prospective/), which contains all the details you need to get started on this rewarding research journey.
